Purpose: In SFY 2002 the NH State DHHS Incentive Funds Program, a \$3.2 million allocation from the State General Fund, supported an array of community-based programs defined in two broad categories of services: (1) prevention, family support, wellness, and (2) intervention and juvenile diversion programs. The funds are allocated quarterly to each of the State's 10 counties based upon the juvenile population and an equitable distribution formula. These funds support more than 200 programs that service approximately 14,000 children and their families. This program is regulated by NH State RSA 170-G:4 XVI.

Members: The Sullivan County NH Human Services Coordinator administers the Incentive Funds Program for Sullivan County. The voting members of the Sullivan County Incentive Funds Program Application Review Committee Panel include: the Sullivan County Commissioners, a State - County Delegate member (chosen by the Delegation Chair) and representatives from DCYF Family Services, Juvenile Probation Parole and the community.
